

Forestry **safety** signage user guide

THINK SAFE
STAY SAFE

Contents

- 3. Background
- 4. How to use
- 5. Full suite
- 6 – 10 Sign types

Background

These sign designs have been produced by the Forestry Commission in conjunction with partners who have signed up to the Forest Industry Safety Accord (FISA).

These signs can be used by FISA members and non-members in and around forestry work sites to communicate a consistent safety message to forest users.

They are available with member and non-member FISA logos.

How to use

Signs are supplied as **Adobe Acrobat PDF files** with 400x600mm (trimmed size) with 3mm bleed for printing with professional sign printing companies.

Substrates can be correx, dibond or similar.

An **editable field** has been put within the PDF file so that company names and contact information can be added.

Full suite

Forestry work is in progress

Parts of this forest are temporarily closed to public access. Our Safety Rules and signs are there to protect you and those working here.

Safety Rules

- Keep out of closed areas
- Keep away from all machines
- Beware of all vehicles
